RESUME SUMMARY

I am a competent and reliable simulation specialist with 15+ years of experience training, educating, and operating in the military domain. I am eager to contribute my experience and skills to a group of professionals dedicated to developing teams and individuals to meet their full potential.

EXPERIENCE

Monitoring Officer, Pacific Architects and Engineers, Sep 2014 – Present

- Standardized team operations by applying military planning methods that improved the team's coordination and efficiency during operations.
- Planned and supervised the execution of four "2nd of May" patrols, ensuring the team's safety.
- Effectively managed a team of 21 individual personalities ensuring a peaceful work environment.
- Monitored over 400 kilometers of the Transnistrian border, providing the OSCE situational awareness regarding the security situation.

Curriculum Developer, Alion Science and Technology, Odessa, Ukraine Aug 2013 – Sept 2014

- Advised the Commandant on the best way to integrate our NATO program into the 2015 academic year curriculum.
- Designed and taught a program of instruction to 2nd, 3rd, and 4th-year cadets, furthering their understanding of NATO offensive and defensive operations.
- Improved the cadets ability to make decisions and solve problems by implementing the "Follow Me" software into their program of instruction.
- Developed a block of instruction featuring NATO mechanized infantry and armor operations for 35 students attending the Captain's Advanced Course, giving them an in-depth understanding.

Embedded Police Mentor, DynCorp International, Khowst Province, Afghanistan Jun 2011 – Aug 2013

- Mentored a special unit of 10 Afghan patrolmen tasked with augmenting coalition forces and securing FOB Salerno.
- Developed and taught a one-week induction program to my ten-man police unit, improving their ability to operate with their US Army partners.
- Assisted 33 patrolmen in planning independent night patrols.
- Participated in over 75 mounted and dismounted combat patrols with the US Army while advising the Afghan police.

West Point Simulation Center Manager, West Point, West Point, NY Aug 2004-Jun 2011

- Integrated Virtual Battlespace 2 into cadet basic training, providing over 1000 cadets an opportunity to practice squad fire and movement techniques before going to the field.
- Enhanced the Military Science 3 and 4 programs by integrating the "Follow Me" program which was used to practice making tactical decisions.
- Incorporated the Follow Me simulation into three military science courses, one college major (Defense Strategic Studies), and two leadership courses for the department of Behavioral Science and Leadership.
- Assisted instructor's in using the "Follow Me" program to achieve class learning outcomes in decision- making.

KEY SKILLS

Content Development	Gaming and Simulations	Virtual Battlespace	Microsoft Office
Writing	Software & Hardware	Computer Networking	

EDUCATION

Guam Community College, Technical Electronics, 1981
Central Texas College, General Studies, 1989
